CALCULATOR POLICY

Examination and tests in the Melbourne School of Engineering are to be marked on the front page with one of these three alternative instructions:

1. All calculators may be used
2. Only Faculty approved calculators may be used
3. No calculators may be used

Prior to any text or examination, the examiner for that subject must inform students of the policy that applies in that subject, using as many as possible of the following methods of communication: statement in the introductory handout; announcement via the subject webpage; announcement in the lecture prior to the test or exam; and example instructions given to students as part of a practice test or exam.

“School approved” calculators are calculators that only have basic arithmetic and memory (storage) capabilities. These calculators can include built-in trigonometric and logarithmic and statistical functions, but may NOT be programmable (i.e. calculators in which the user can store a sequence of operations that the calculator can execute automatically are not permitted); may not be graphical; may NOT have the ability to store text, or other information; and must not be able to communicate with other devices (via infrared, Bluetooth or similar).

Students in the Melbourne School of Engineering will be expected to have access to one of the “School/Faculty approved” calculators in the list on the next page. Students must take this calculator to the Engineering Student Centre to have an official MSE sticker applied to their calculator. Calculators without this sticker attached may not be taken into any examinations or tests for which the Examiner has designated as “Only School/Faculty approved calculators may be used”. The official MSE stickers may not be transferred from one calculator to another.

The current list of approved calculator models is provided on the following page.

Please note:

- This list is **non-negotiable**. Please do not ask to have other calculator models added
- The model number **must** correspond **exactly** with a model on this list for a sticker to be provided
- Stickers are **tamper evident**. Any attempt to remove a sticker will render the approval void.
**School Approved Calculators**

**HP**
- Hewlett Packard SmartCalc300S Scientific Calculator
- *Hewlett Packard SmartCalc 300S (update of HP 30 S)*
- Hewlett Packard EasyCalc 100 (update of HP 10 S)
- *Hewlett Packard 30 S*
- Hewlett Packard 35 S
- *Hewlett Packard 10 S & Hewlett Packard 10S Scientific Calculator*

**Casio**
- Casio FX-81AU
- Casio FX-82AU
- Casio FX-82AU Plus (update of Casio 82AU)
- Casio FX-82ES
- *Casio FX-82ES Plus*
- Casio FX-82MS
- Casio FX-82TL
- Casio FX-83ES
- Casio FX-85MS
- *Casio FX-100AU*
- Casio FX-100MS
- Casio LS-330H
- Casio FX-350MS
- Casio FX-350ES
- Casio FX-350TL
- Casio FX-570W
- Casio HL-820V S
- Casio FX-911Z
- Casio FX-911W
- Casio FX-991ES

**Sharp**
- Sharp EL-520WG
- Sharp EL-531WH
- *Sharp EL-531WHB*
- Sharp EL-531RH

**Texas Instruments**
- *Texas Instruments TI-30X B*
